

Curriculum Vitæ

Junyuan Hong

University of Texas at Austin

Phone: +1 (517) 668-5790

E-mail: jyhong@utexas.edu, Webpage: <https://jyhong.gitlab.io>

I am a joint postdoctoral fellow in the Institute for Foundations of Machine Learning (IFML) and Wireless Networking and Communications Group (WNCG) at UT Austin.

Education

Ph.D. in Computer Science and Engineering 2023

Michigan State University, East Lansing, MI, USA

Supervisor: Dr. Jiayu Zhou

Committee: Dr. Anil K. Jain, Dr. Sijia Liu, Dr. Zhangyang Wang, Dr. Jiayu Zhou

Thesis: Data-Centric Privacy-Preserving Machine Learning

M.S. in Computer Science 2018

University of Science and Technology of China, Hefei, China

Supervisor: Dr. Huanhuan Chen

B.S. in Physics with minor in Computer Science 2015

University of Science and Technology of China, Hefei, China

Research Interests

Privacy-Centric Trustworthy Machine Learning: Theory and algorithms of privacy-preserving learning with assurance of fairness, robustness, security and inclusiveness.

Human-centric AI for Healthcare: Trustworthy and affordable medical predictive modeling and intervention for cognition dementia diseases, especially using generative artificial intelligence (e.g., large language models).

Research Experiences

Aug '23 - Present **Joint Postdoctoral Fellow**, IFML&WNCG at University of Texas, Austin, TX, USA

Supervisor: Dr. Zhangyang Wang

(1) Large language models for healthcare (dementia diagnosis and treatment);

(2) Democratizing large vision/language models with privacy protection.

Aug '18 - July'23 **Research Assistant**, Michigan State University, MI, USA

Supervisor: Dr. Jiayu Zhou

(1) Privacy-preserving and fair machine learning systems for healthcare with heterogeneous users;

(2) Holistic trustworthy machine learning that are affordable, adaptive and beneficial for more and diverse users.

Feb '22 - Aug '22 **Research Intern**, Sony AI, NY, USA

Mentor: Dr. Lingjuan Lyu

(1) Privacy-preserving cloud training algorithms that require low computation costs and

low privacy risks for edge devices;
(2) Memory-efficient model adaptation algorithms for dynamically-changing test-time environments, which can fit into edge devices.

Aug '15 - Jun '18 **Research Assistant**, University of Science and Technology of China, Hefei, China
Supervisor: Huanhuan Chen
(1) Hardware and software prototype for detecting underground cables;
(2) Implicit data-augmentation optimization algorithms for subspace data with applications to human action recognition.

Honors & Awards

2023	Research Enhancement Award, Michigan State University The 3rd place in the U.S.-U.K. Privacy-Enhancing Technologies (PETs) prize challenge Dissertation Completion Fellowship, Michigan State University
2021	Carl V. Page Memorial Graduate Fellowship, Michigan State University
2015	Outstanding Freshman Scholarship, University of Science and Technology of China

Selected Publications

([†] indicates the equal contribution, * indicates (co-)advised students.)

(1) Machine Learning for Healthcare

Teaching Experiences

Fall 2023	Mentor, “Trustworthy Large Language Models” (undergraduate level), Directed Reading Program (DiRP), University of Texas at Austin Mentoring students on reading papers and conduct projects
Spring 2023	Lectures on privacy and federated learning at “CSE847: Machine Learning” (graduate level), Michigan State University
Spring 2021	Teaching Assistant, “CSE847: Machine Learning” (graduate level), Michigan State University Lectures on privacy and federated learning
Fall 2020	Teaching Assistant, “CSE404: Introduction to Machine Learning” (undergraduate level), Michigan State University

Invited Talks & Presentations

2024	(Guest Lecture) Building Conversational AI for Affordable and Accessible Early Dementia Intervention. <i>AI Health Course</i> , The School of Information, UT Austin, April, 2024 (Invited Talk) Shake to Leak: Amplifying the Generative Privacy Risk through Fine-Tuning. <i>Good Systems Symposium: Shaping the Future of Ethical AI</i> , UT Austin, March, 2024
2023	(Guest Lecture) Foundation Models Meet Data Privacy: Risks and Countermeasures. <i>Trustworthy Machine Learning Course</i> , Virginia Tech, November, 2023 (Invited Talk) Backdoor Meets Data-Free Learning. <i>TMLR Group</i> , Hong Kong Baptist University, September, 2023 (Invited Talk) MECTA: Memory-Economic Continual Test-Time Model Adaptation. <i>Computer Vision Talks</i> , April, 2023 (Oral) Federated Robustness Propagation: Sharing Adversarial Robustness in Heterogeneous Federated Learning, <i>The Thirty-Seventh AAAI Conference on Artificial Intelligence</i> (AAAI 2023), Washington D.C., February 2023.
2022	(Poster) Outsourcing Training without Uploading Data via Efficient Collaborative Open-Source Sampling. <i>The Thirty-seventh Conference on Neural Information Processing Systems</i> (NeurIPS 2022), November, 2022. (Invited Talk) Split-Mix Federated Learning for Model Customization, <i>TrustML Young Scientist Seminars</i> , RIKEN, July, 2022 (Poster) Efficient Split-Mix Federated Learning for On-demand and In-situ Model Customization, <i>The Tenth International Conference on Learning Representations</i> (ICLR 2022), Virtual, April, 2022.

- (Poster) Efficient Split-Mix Federated Learning for On-demand and In-situ Model Customization, *Engineering Graduate Research Symposium*, Michigan State University, April, 2022.
- (Invited Talk) Efficient Split-Mix Federated Learning for On-demand and In-situ Model Customization, *Sony AI Journal Club*, Virtual, February, 2022.
- (Oral) Dynamic Privacy Budget Allocation Improves Data Efficiency of Differentially Private Gradient Descent, *The 2022 ACM Conference on Fairness, Accountability, and Transparency* (FAccT 2022), Virtual, June 2022.
- 2021 (Talk) Federated Adversarial Debiasing for Fair and Transferable representations, *CSE Graduate Seminar*, Michigan State University, October, 2021
- (Oral) Federated Adversarial Debiasing for Fair and Transferable Representations, *The 27th ACM SIGKDD International Conference on Knowledge Discovery and Data Mining* (SIGKDD 2021), Virtual, August 2021.
- (Poster) Learning model-based privacy protection under budget constraints, *The Thirty-Fifth AAAI Conference on Artificial Intelligence* (AAAI 2021), Virtual, February 2021.
- 2020 (Invited Talk) Dynamic Policies on Differential Private Learning, *VITA Seminars*, University of Texas at Austin, Virtual, March 2020.
- 2018 (Oral) Disturbance Grassmann kernels for subspace-based learning, *The 24th ACM SIGKDD International Conference on Knowledge Discovery and Data Mining* (SIGKDD 2018), London, August 2018.

Professional Activities

Program Chair:

- Lead Chair at the 1st International Workshop on Federated Learning for Distributed Data Mining co-located with ACM SIGKDD 2023. ([f14data-mining.github.io](https://github.com/f14data-mining))

Technical Program Committee Member (or Equivalent Reviewer) for Conferences or Journals:

- Transactions on Knowledge and Data Engineering (TKDE): 2023
- Journal of Artificial Intelligence Research (JAIR): 2023, 2024
- Transactions on Dependable and Secure Computing (TDSC): 2023, 2024
